Happiness on Wheels with THK FOW Compressors

Cooling For a Better Tomorrow™

Compressor for freezer on wheels (fow)

Our wide range dependable, energy - efficient and quiet compressors are backed by 85 years of reliability & refrigeration expertise. From chilling to freezing we have the right solution for any need in the commercial refrigeration market. THK (FOW) compressors are engineered to sustain the vibrations and challenges in this special mobile application.

Compressor Information

Application: LBP - Low Back

Pressure Refrigerant : R - 134a

Voltage / Frequency : 230V - 50Hz

Evaporative Temp. Range: 34.4°C to -12.2°C (-30°F to 10°F)

Specification

Model	Disp / Rev	Capacity	Power	EER	Current	LRA	Circuit	Net Wt
